

Digital Flow Indicator- Field Mounting

Product Description

Digital Flow Indicator- Field Mounting :

We are one of the leading manufacturers, exporters and suppliers of a supreme quality range of Digital Flow Indicator. In order to manufacture this indicator, our professionals use exceptional quality raw material and highly developed technology. This is used in various industries for indicating the water flow in M3/hr / LPH / LPM / LPS / GPMus / GPMuk. Spaced out from it, this Field Mounting Digital Flow Indicator is accessible in different specifications as per the requirements of our clients.

Features:

- High efficiency
- Longer service life
- Sturdy construction
- Energy efficient

Technical specifications:

Function	Rate indicator only
Display	16 X 1 LCD display
Supply Voltage	230 V AC
Linearity	+1% of full range
Repeatability	+0.5% of full range
Inputs	Nuclus flow sensor (P812)
Configuration Lock	Password protection
Calibration	Using front membran keys
Meter Size	110 mm X 110 mm X 150 mm
Cutout Size	90 mm X 90 mm
Protection Rating	IP65 for field mounting unit
