

# Product Description

## Digital Flow Transmitter- Field Mounting:

Owing to our expertise in this domain, we are engaged in offering an excellent quality array of Digital Flow Transmitter. This module is widely used for batching & dosing application and is can also be used as flow switch. The offered controllers are designed and manufactured using superior grade raw material with the help of most modern technology. Additionally, this Field Mounting Digital flow Transmitter is presented in dissimilar technical specifications as per the requirements of the clients.

### Feature

- Compact design
- Excellent performance
- Easy installation
- Minimum power consumption

### **Technical Specifications:**

<b>Function</b>	Rate indicator cum Totalizer
<b>Display</b>	16 X 2 LCD display
<b>Supply Voltage</b>	230 V AC
<b>Linearity</b>	+1% of full range
<b>Repeatability</b>	+0.5% of full range
<b>Inputs</b>	Nuclus flow sensor (P812)
<b>Configuration Lock</b>	Password protection
<b>Calibration</b>	Using front membrain keys
<b>Output</b>	5A pot. Free Relay @230VAC 4 to 20 mA / 2 to 10 VDC Rs232 ( optional )
<b>Meter Size</b>	110 mm X 110 mm X 150 mm
<b>Cutout Size</b>	90 mm X 90 mm
<b>Protection Rating</b>	IP65 for field mounting unit
